Community Limitations and Requirements (as compared to clubs)

Communities will NOT:

- Be given a quarterly stipend of funding for events, travel, or club-related expenses.
- Have a legislative vote on student government issues (such as bylaws changes or S&A Budget approval). They will NOT be required to view online Canvas modules about these items or maintain a club council representative.

Communities WILL:

- Have a minimum of three student members.
- Entertain at least one yearly visit from the ASCBC office. This visit will be an "informal health check" of the Community just to see what's happening inside the group.
- Have the ability to re-evaluate the group's community status and petition to be a club once during the academic year (if desired). This must happen prior to the final club application deadline in January.
- Have access to a joint community account (see further explanation below).
- Have a staff or faculty member who is willing to take on the role of "mentor." The mentor should be willing to occasionally meet with the Community to provide guidance or support around their topical area.

Community Funding

Students in a Community who would like to do an event to promote their group may request a meeting with the Assistant Director to go over ideas, event planning, and marketing strategies. If approved, the Community will have access to a small amount of funding to have a free event on campus. The event must be open to all interested students. Initial approval of the event will be at the discretion of the Assistant Director.

Community Purpose Statement

Communities need to revise this each year to ensure that the current members have full say in how their community is going to function. Previous or old versions will not be accepted.
