## BEFORE YOU START

Ready to get started? To begin working towards the AA-DTA degree, you simply need to apply and be accepted to CBC. You can apply online at [www.columbiabasin.edu](http://www.columbiabasin.edu).

## ABOUT THE PROGRAM

An anonymous source said, "Knowledge of Mathematics makes you more versatile, valuable and mentally mature."

Any attempt to define mathematics is destined to miss the grand scope of the discipline, but in short, mathematics is the logical study of quantities, structures and space both from an abstract perspective as well as an applied context.

In general, students pursuing every degree at CBC will find math courses to satisfy their educational goals.

## OUT OF CLASS TO DO'S

- Contact your instructors and/or the CBC Career Services Center to find an internship, observation/shadowing experience, or a job in a field related to math or education.
- Research transfer schools of interest with your Completion Coach.
- Visit the Academic Success Center for quiet study space, small group study, supplemental instruction and tutoring assistance.

## CAREER OPPORTUNITIES

Students will be prepared to transfer to a 4-year institution that offers math education in order to become a certified teacher.

There is always a high demand for math educators.
