BEFORE YOU START

Ready to get started? To begin working towards the AA-DTA degree, you simply need to apply and be accepted to CBC. You can apply online at www.columbiabasin.edu.

ABOUT THE PROGRAM

In this pathway, students develop the foundational skills and abilities to prepare for an advanced to degree where they will learn to create complex built environments. Students may also learn to confront technical problems, address human needs, and resolve esthetic concerns. This program aims to provide students with a broad understanding of the arts and humanities.

OUT OF CLASS TO DO'S

- Contact your instructors and/or the CBC Career Services Center to find an internship, observation/shadowing experience, or a job in a field related to architecture.
- Research transfer schools of interest with your Completion Coach.
- Visit the Academic Success Center for quiet study space, small group study, supplemental instruction and tutoring assistance.

CAREER OPPORTUNITIES

While the typical goal of pursuing a degree in Architecture is to become a licensed architect, design is an increasingly broad arena in our culture. An architectural education prepares students to be creative and adaptable in roles from the technical to the esthetic. Many students continue with dual majors in business, engineering, landscape or community and regional planning.
